State Farm Leaders To Attend National Farm Program Conference

A national conference on farm programs for the 70's has been called in Washington, D.C., Nov. 30 through Dec. 3, by the Agricultural Stabilization and Conservation Service, Farm Program Agency of the U. S. Department of Agriculture.

Attending from Virginia will be the members of te State Agricultural Stabilization and Conservation (ASC) Committee: James S. Gillespie, Chairman; Delman R. Carr and Homer A. Long, Jr., Members. Also attending will be W. T. Powers, Executive Director of the State ASCS office. In addition, Homer O. Simpson, H. Lewis Vines, and Lawrence W. Neal from the State Office Staff will attend sessions of the conference on program details.

High-ranking government officials will address the conference on a variety of current topics, with interest expected to center on new farm legislation which now awaits the signature of President Nixon.

Broad, long - range agricultural questions also will be discussed by Secretary of Agriculture Clifford M. Hardin, Under Secretary J. Phil Campbell, Assistant Secretary Clarence D. Palmby, ASCS Administrator Kenneth E. Frick, and other USDA officials.

On the opening day of the National Farm Program Conference, Oklahoma Congressman Page Belcher of the House Agriculture Committee will be the luncheon speaker. A featured speaker that afternoon will be Attorney General John Mitchell.

"Most of the conference will be devoted to information on the new farm legislation," ASC Committee Chairman Gillespie said, "The legislation is a significant change in American farm policy and programs. It is designed to give farmers more opportunity to manage production for market demand and increase farm income. It provides farmers more freedom in management of their farms than any previous farm program legislation."

He stated it was his understanding that producers could look forward to learning details of the new farm programs in the near future, "The National Conference on Farm Programs for the 70's is the first step in acquainting farmers with the new directions of farm programs," Mr. Gillespie said.
